

Positive Practice

How to Toilet Train Children with Special Needs

Adapted from the Foxx & Azrin potty training program

For Parents & Professionals

Time: 6pm-8pm

This workshop is adapted from research studies that specifically targeted teaching toileting skills to children who exhibit some learning difficulties. We will teach you how to emphasize learning through motivation, reinforcement, and correction procedures in order to see the most efficient results. Our objective, as dictated by Azrin and Foxx, is to “teach your child to toilet himself or herself with the same independence as an adult and without the need for reminders, continued praise, or assistance”.

Registration Fee:

\$20/person or \$30/two family members, no cost to *current CTAC family members*

Registration Deadline:

Payment must be **PAID IN FULL** prior to workshop to hold a seat.

Located at:

Central Texas Autism Center
3006 Bee Caves Rd., Ste. **B200**
Austin, Texas 78746

Registration Information: Call CTAC at 512-328-5599 or e-mail Jenny Whirledge at jwhirledge@ctac1.com
